I have always enjoyed a good mystery, even those written for young people.

The Case of the Felon's Fiddle: A McGurk Mystery

Some of the books are more in-depth than others and this is one of those, making it more interesting for me to read. It may also be ex-library or without dustjacket. Unfortunately, he can't play well, not having taken any lessons.

McGurk Mysteries

If you want to force a particular order, use the character to divide the number and the descriptor. It is an Ex-Library book and does have a pocket and card on the 1st page loose end paper. His mind works in death-defying leaps which are as likely to be spectacularly wrong as spectacularly right.

The Case of the Felon's Fiddle

He was born in Bradford, England in 1925.

McGurk Mysteries

The Case of the Phantom Frog 1979 Is a boy really turning into a frog? The Case of the Fantastic Footprints 1994 Strange footprints have been appearing in wet cement around the neighborhood. You might also check out the section which has lists of books on specific topics and themes along with some additional resources on those topics.
