The Impact of Technology in Healthcare

I currently work in the RN capacity at the Department of Veteran Affairs in Jamaica Plain, Massachusetts. It also can be used to develop algorithms that help oncologists offer.

5 Ways Technology is Improving Health

When you log into a web-based service, you are guided through a series of questions.

The History of Healthcare Technology and the Evolution of EHR

Using computers to collect and manage medical records was uncommon but growing. However, these expansive communication tools can create stress and feelings of intake overload. In addition to enhancements in care and improved evidence-based practice, the increased amount of data collected by EHRs and other data systems has created a massive amount of data that hospitals and health care organizations now have to manage and analyze.

The Impact of Technology in Healthcare

With technology coming to the forefront of healthcare this has been a key focus area. Kurt Lewin's theory of change offers a tactical approach that can help informatics nurses in implementing and evaluating the projected changes in the system processes.

5 Ways Technology is Improving Health

Looking to the Future It took us a century to go from scribbled notes to the ability to access medical information on hand-held devices and cell phones. The implementation of these telemedicine options means fewer patients in waiting rooms and less pressure on front desk teams.

5 Ways Technology is Improving Health

The initiative behind Meaningful Use was to encourage the use of Electronic Health Records in all health systems nationwide. Electronic Health

Records EHRs As any student of health informatics knows, the movement toward electronic health records is a huge evolution in the medical field, and one that can facilitate countless advances in medical diagnostics and treatment.

Legal and Ethical Issues in Health Informatics

Entering data into a computerized system is much less time-consuming than paper-based methods, and it reduces the risk of errors in patient data and financial details. Avant is a Joint Commission accredited staffing agency and founding member of the American Association of International Healthcare Recruitment AAIHR.
