## [PDF] Business

In general, however Japanese businessmen are more accustomed than their counterparts here to working with the government. The pattern of these arrangements, the Boston Consulting Group's analysts point out, has complicated the problem of carrying forward the consolidation of that industry which MITI is now advocating.

This is certainly the case with respect to the computer and motor vehicle industries.

### Relationship between Business and Government

Its impact on the international competitiveness of Japanese ships, autos, bearings, and machinery has been profound. The Steel Industry Promotion Law, for example, the first of a series of laws providing tax exemptions for steel companies, dates from 1917.

### Relationship between Business and Government

By establishing a holding company, two companies can be integrated with each other without losing their independency. Both types quite definitely contribute to the process.

### RIETI

The uneasiness stems not just from the impact which Japanese economic growth has had on the American economy, but from the feeling that Japan may be playing the economic game under a different set of rules than obtain in this country. University classmates, especially, still identify strongly as members of the same group, even though over the years, as is often the case, one may have risen to the top ranks of the civil service and another to a key post in corporate management. Once problems were identified, effective measures were devised to deal with them.

### Relationship between Business and Government

It is the responsibility of the business houses to make sure that their political involvement provides an additional safeguard against the authoritarian potential of a mass society. The state- owned Japan Telephone and Telegraph Corporation, for example, is a major customer for the products of the Japanese electronics and computer industries, the latter a high priority growth target. MITI had several alternative concerns of major priority during the late 1950's.
