Encyclopedia of the Great Plains

Direct sales accounted for over 60% of the total in the first year. Other elevator owners quickly agreed to accept Pool wheat when they realized the farmers had created.

How pooling works

Snapp, Samuel Fortier, Virgil Verser Parr, William Robin Thompson, Channing W. It was originally built as an UGG in 1920, and became a Alberta Wheat Pool in 1927.

How pooling works

In 2007, Agricore United was taken over by the , another publicly traded company. The merged corporation was renamed. The Canadian Wheat Board historically operated wheat, durum, malting barley and feed barley pools with additional Producer Pricing Options on some grains.

Vanishing Sentinels

With the largest database of businesses found in Canada, Yellow is your first choice for search. This caused anger among members and harsh accusations were delivered.

How pooling works

It was built in the 1920's, and closed in the 1970's. In order to obtain the government loans, the Pools had to give up overseas direct sales. A number of other policies were adopted which reduced the income of farmers and raised the cost of the goods they had to purchase from eastern manufacturers.

How pooling works

From 1924 to 1931, the pool worked with its sister organizations in Alberta and Manitoba through the Central Selling Agency to market a

majority of the Prairie wheat crop, wherever possible directly to overseas customers, and to build or purchase networks of storage elevators.
