Graduate Courses

The monopolistic competitor can change his product either by varying its quality, packing, etc.

Courses in ECONOMIC SCIENCES

In the short run, the number of firms is fixed, whereas in the long run, entry and exit of firms is possible, based on profit conditions. The only difference is that for a monopolistically competitive firm, the demand is relatively elastic, or flat. Course Prerequisite: By department permission.

Market structure

AREC 506 3 Applied Microeconomic Theory. This is called duopsony market.

Structure and content

Selected case study applications and current topics are discussed. Topics include: Theoretical and empirical analysis of environmental valuation methods, advanced benefit cost analysis, welfare economics, valuation of ecosystem goods and services, valuation of health impacts from environmental quality change, and linkages to experimental and behavioural economics.

Introduction to Agricultural Economics [Theory and Practice]

Introduction to agricultural economics, including a survey of the role and characteristics of agriculture businesses in our economic system. Typically offered Fall, Spring, and Summer.
