Les plantes maraîchères de toutes provenances constituaient 43 % des échantillons. Développement de marqueurs microsatellites et structure génétique des populations de *Globodera rostochiensis* au Québec A.

## Resumes des communications orales et affichees

What I mean here is that an ideal work environment for everyone is where people feel comfortable giving and receiving criticism and comments. Aerial sporangia concentration ASC of P. Rolling your eyes during their story will surely make them feel insignificant, while glancing at your watch tells them you have better things to do.

## Résumés des Communications

Thus, it may be useful to direct the scouting and build an effective network of airborne spore trapping for detecting and monitoring P. Write so that
