How would you respond to that? Conversely, if TVA's nuclear plants suffer frequent shutdowns by the NRC because of safety problems, they will not generate enough revenue to pay off the debt incurred to construct them, and TVA's ratepayers will have to make up the difference by paying higher rates. And the IRP is being done by whom? The big one was a 30-GeV accelerator.

For a further discussion of the annual profits of the drug business in the United States, see *supra* note 174 and accompanying text. As you may know, in western Kentucky we have a network already working with the colleges and the high schools. Indeed, I should say the budgets are roughly equal in Europe and here, but Europe has only IVi laboratories, namely CERN and Hamburg, whereas we have here more than three, and therefore they have more money available for services.
