**Globalised Economy / Edition 1 by Russell Smyth**

For the government, the reforms to the financial system were designed to contain risks and improve efficiency of financial intermediation without jeopardizing economic stability, which Beijing views as closely intertwined with political stability.

**Open for business: China's financial liberalization**

The new Ministry of Natural Resources MNR takes over eight new functions from other ministries or agencies. But partners will still be wary about

specific issues. Two new cabinet-level ministries are created.

At present, that rate is 60. These new commissions or committees were formerly central leading groups.

### **China must address institutional reform to sustain high quality growth**

The RMB will gradually appreciate as productivity increases, as implied by the Balassa-Samuelson Effect. Reports of veteran protests in recent years suggested some serious issues with the settlement, compensation, and preferential treatment these veterans received. In the past, the Publicity Department always played an important role in censoring media content.

### **China's economic future 2021**

ANZ Research believes China is committed to opening up and staying open for business, as it will enter more free trade agreements potentially with South Korea and Japan , investment agreements with the EU and even regional blocs with the Regional Comprehensive Economic Partnership. Since 1993, China has been the second largest recipient of foreign direct investment in the world and is now considered to be the world's third biggest economy. Most provincial governments have only 60 or fewer institutions.
