## The Unquiet Grave: A Word Cycle by Palinurus by Cyril Connolly

It's terrible thing that you can not see them and hear them, but they will affect you. Batman is an American icon, as much as George Washington or Coca-Cola, and next month he gets to start over which is nice — a lot of shit has happened to him in the last twenty years.

## The unquiet grave

Approaching forty, sense of total failure; not a writer but a ham actor whose performance is clotted with egotism; dust and ashes; 'brilliant'.

## THE UNQUIET GRAVE, A WORD CYCLE by Palinurus 1958 Revised 4th Ed.

It is when we begin to hurt those whom we love that the guilt with which we are born becomes intolerable, and since all those whom we love intensely and continuously grow part of us, and since we hate ourselves in them, so we torture ourselves and them together. And yet to perceive that in ourselves revolves a cycle of activity which is certain to end in paralysis of the will, desertion, panic and despair - always to go on loving those who have ceased to love us, and who have quite lost all resemblance to the selves who we loved! The Unquiet Grave is considered by many to be his most enduring work. If our elaborate and dominating bodies are given us to be denied at every turn, if our nature is always wrong and wicked, how ineffectual we are—like fishes not meant to swim.

## The unquiet grave

We eat, drink, and talk a little too much, abuse all our friends, belch out our literary preferences and are egged on by accomplices in the audience to acts of mental exhibitionism. A Word Cycle by Palinarus.

### **The unquiet grave**

Half title, collotype frontispiece and 3 plates. If we believe that the universe is an accident and life an accident contingent on the universe and man an accident contingent on life; then rules are made for men to be happy and it has been found by generations of exponents that happiness consists in fulfilment of the personality—in former days through the family, now by rendering more and more services to a group—in fact through the happiness of the greatest number.
