Our Program

I Young adult and children's authors seem to convey emotion and situations so much better than adult fiction Don't ask me how, but it's believable that the family got so caught up in other things that they let Tin go wild and dig all over the place. It's comforting to know that in a small way others get to know him through this film, though no film could do total justice to his wonderful spirit.

Thursday's Child (1943)

It's a hard book to classify, Harper grows from a naive girl of 7 to a teenager, seeing death, siblings fall in love, parental conflict, hardship.

Our Program

The strangeness of one of the members of the family within the story is wonderfully interwoven with the day to day living; so effectively that you accept it as part of the family. . I found the movie good, but had the feeling there were a lot of holes and unanswered questions.

Home

Thursday's Child tells a remarkable story that is really a page turner. The death of her toddler brother was sadly all too real. .

Thursday's Child (TV Episode 1965)

On the day a new baby arrives, there is an accident and 4-year-old Tin is buried in the earth, feared dead.

Home

Frankly I found it all a little unrealistic. .
