### African American Cultural Heritage Action Fund

Such documentation may be accomplished utilizing the contractor's approved electronic system for indicating inspection status or by the application of a signature or stamp to prerecorded planning documents or records e. A use that severely damages or destroys a historic property is not consistent with the section 110 a 1 requirement to preserve historic properties in accordance with the professional standards established pursuant to section 101 g of the Act. The head of such agency may not delegate his or her responsibilities pursuant to such section.

### About Preservation Programs

Agency procedures should include a system for early warning to applicants and potential applicants that anticipatory demolition of a historic property may result in the loss of Federal assistance, license or permit, or approval for a proposed undertaking.

### Section 110

Agencies are authorized and directed by section 110 a 1 to carry out or cause a lessee or concessioner to carry out whatever preservation work is necessary e. Government Contract Quality Assurance Requirements 2. The Federal Agency Preservation Assistance Program carries out a number of activities on behalf of the Secretary of the Interior to assist Federal agencies in meeting their historic preservation responsibilities pursuant to Section 110 of the Act.

### Section 110

Contact the NPS' Heritage Preservation Services Division or its Recreation Resources Assistance Division in Washington, D.

### Preservation Programs

The procedures must define what constitutes appropriate legislation, as long as: i Designation provisions in such legislation include the identification and registration of properties for protection that meet criteria established by the or the locality for significant historic and prehistoric resources

within the jurisdiction of the local government; ii Protection provisions in such legislation include a local review process under or local law for proposed demolitions of, changes to, or other action that may affect historic properties as of this section describes; and iii The legislation otherwise is consistent with the. Government Mandatory Inspection Points GMIP per Chapter 8 of this NPR, when determined on a discretionary risk-informed basis to be in NASA's interests.

#### **County Initiative Program (CIP)**

Delegated agents include non-NASA Government agencies and quality assurance support contractors that are independent of the contractor under surveillance. Each Federal agency establishes and maintains a historic preservation program that is coordinated by a qualified Preservation Officer, and that is consistent with and seeks to advance the purposes of the National Historic Preservation Act.

#### **County Initiative Program (CIP)**

In this NPR, all mandatory actions i. Development of Government contract quality assurance requirements to be incorporated into PQASPs, quality assurance LODs, support contracts, and commercial item acceptance procedures. Designation programs include city and state landmark programs as well as the National Historic Landmarks Program.
