Spine creases, wear to binding and pages from reading. The twin keys to this kind of when-you-can cooking are your freezer and your refrigerator.

Some of the thawing instructions are outdated, this book gives times for thawing raw meat at room temperature which is a BIG NO-No. Many freezer cookbooks just tell you not to freeze fried foods, not Betty Crocker.

They also recommend under-cooking dishes for the freezer, something that is NOT OK in dishes with meat. Directions describing how to cool, wrap, label and freeze dishes are on pages 84-87. I only recommend products and brands I trust.

A great bit of history and some timeless recipes are contained in these pages but they also have some serious flaws. Only half of the recipes in this book are for the freezer, the other half are make ahead for the fridge recipes some of which could be frozen. Accessories such as CD, codes, toys, may not be included.
