Finally, the EasyMote offers only two ways to program in your devices a quick code search or learning the IR from your device remotes. As we mentioned, the U1 can control IR and Bluetooth devices, which should cover most any AV device you want to add to your system, including Bluetooth devices like the Chromecast with Google TV, Nvidia Shield TV, and some gaming consoles and older Fire TV players. In years past, if you wanted an advanced universal remote that you could program yourself as opposed to models that are sold exclusively through dealers, like Crestron and Control4, that program them for you , you had many choices—from brands like Harmony, Sony, Pronto, URC, and UEI.
