## Community Care for People with Complex Care Needs: Bridging the Gap between Health and Social Care

Abstract VOL: 100, ISSUE: 8, PAGE NO: 38 Jonathan Webster, MSc, BA, DPSN, RGN, is consultant nurse, older people, Royal West Sussex NHS Trust and Western Sussex Primary Care Trust Sarah Byrne, BSc, DPSN, RGN, is ward sister, Royal West Sussex NHS Trust. Most older adults have problems with cognitive function and speech perception as the years pass by. Marek KD, Popejoy L, Petroski G, Rantz M: Nurse care coordination in community-based long-term care.

## Community Care for People with Complex Care Needs: Bridging the Gap between Health and Social Care

This review summarized the need of continuing care for older patients during the transitional period, the definition of discharge planning, the conceptual framework of discharge planning, and the professionals involved in discharge planning.

## Methods of Teaching and Learning of the Elderly: Care in Rehabilitation

Healthcare workers have to educate older patients about sexuality changes they will go through and discuss their needs and concerns along the way.

## Elderly Patients in Hospital. Information and advice leaflet

And this situation has probably happened to us a couple of times. This Nursing model specifically includes recreation as one of the activities of daily living. Two authors independently read the titles and abstracts and excluded ineligible papers see Figure.

## How Demographics Affect Healthcare and Nursing

She has a history of osteoarthritis, had a mild stroke some years ago, has mild congestive cardiac failure, a mild cognitive impairment and wears

glasses for myopia and hearing aids. I explain that she had fallen over and that she has fractured her shoulder in two places. Understanding the Aging Population As the baby boomer generation ages, the number of older adults in the United States is expected to increase exponentially.
