## Apollo's Warriors by Michael E. Haas

I rated this book 4 instead 5 stars for one reason. The Korean War marked the first major use of Air Force special operations capabilities during the cold war.

During the period between 1953 and the initial force deployments to Laos and South Vietnam in the early 1960s, the Air Resupply and Communications ARC units had the primary responsibility for USAF special operations. Although Colonel Haas's work ends at this point, it ably sets the stage for the subsequent USAF special operations successes in Panama, the Persian Gulf, Haiti, and elsewhere.
