## How Does Education in China Compare with Other Countries?

Second, life expectancy was distributed in a graded fashion across education groups.

## Beyond national states, markets, and systems of higher education: A glonacal agency heuristic

The presented findings contain also some policy implications. The classification scheme of qualities is primarily used in research on early childhood education cf.

## How do globalisation forces affect higher education systems?

Information about age-, sex-, and education-specific mortality was available in form of probabilities of dying for ages 30 to 64.

## The hybridization of vocational training and higher education in Austria, Germany, and Switzerland

Indeed, I found that these hybrid organizational forms — which signify a puzzling phenomenon considering conventional theories on skill formation in Austria, Germany, and Switzerland — represent a form of institutional permeability. As improvements in educational attainment have also been and will further be made in the less-developed countries of the world Gakidou et al.

## Recent changes in the governance of higher education institutions in Norway

The average years of education in the world are projected to increase from 7.

## The Netherlands : from corrective to facilitative governmental policies (1991)

In 1995, legislation was enacted that provided for the transfer of supervision of all non-degree technical and vocational education programs from the Bureau of Vocational Education, also under the control of the Department of Education, to a new and independent agency now known as the Technical Education and Skills Development Authority TESDA.

#### **The Netherlands : from corrective to facilitative governmental policies (1991)**

Wealthy schools would then increasingly be concentrated in wealthy districts, being able to attract better students and better teachers.

#### **Beyond national states, markets, and systems of higher education: A glonacal agency heuristic**

Specifically, western provinces have skills shortages in fields such as , and eastern provinces lack.
