### Your Brain Has 2 Clocks

But there is still a further puzzle. I've been passing my time in the evenings by learning how to weld at a local community workshop.

### NFL 2020 passing stats

Some aspects of the world, it seems, are perceived through a particular sense. Nevertheless, I do not perceive that relationship, in that I do not see the hand moving. Others, like shape, are perceived through more than one sense.

### Passing Time

So I have two perceptions, one later than the other. Did that period go by quickly or slowly? This day is a gift. One is the perception of successive states as successive, for example the different positions of the second hand.

### Passing the Time achievement in Minecraft

My health improvements have happened, but not at the pace I would have liked. It has been a time of slow progress.
