The Transformation of Consciousness into Wisdom 333 3. The emergence of disjunction: A history of constructionalization in Chinese. Attaining its final limits with the southern point the Summer Solstice , with which the evolutions of fertile growth reach their end, the work of den is then concluded.

## Results

The difference, as far as this study has shown, seems one of visibility rather than importance or dispensability. .

## Chinese English translation systems

Achievement of Bodhi 355 X.

## 20 Essential Chinese Phrases for Newbies and Travellers

By showing what these changes in human events lead to, it discriminates between gains and faults. However, following from the above analysis, the direction of the syntactic reanalysis is a function of the identifiability of the zero subject  $\emptyset$  as a contextual constraint.

## The emergence of disjunction: A history of constructionalization in Chinese, Cognitive Linguistics

The bulk of the translation, however, was carried out during the year 1948-49 spent by me in Peiping as a Research Fellow under the Fulbright Program.
