

Peoples plan II - a plan for Indias economic development, being the report of the Committee for Economic Planning set up by the Indian Renaissance Institute.

Minerva Associates (Publications) - Five

Description: -

-
Developing a sound base for initiating the process of the long-term growth.
On the eve of independence, the Indian economy was in bad condition. Under this circumstance, it was strategically decided by the planners to direct all efforts towards solving the problems of the economy by laying a strong foundation for planned development of industries.
High priority to industrialisation.
The complete strategy for the long term planned development was laid down in the second Five-Year plan. The Plan was prepared by P C Mahalanobis whose contribution in formulating the plan was well documented.
• The Mahalanobis plan main emphasis was on heavy industrialisation.

Urbanization, migration and housing: a case study for India.

Decisions taken with the inclusion of the people who have lived on the land for centuries is much more likely to reflect their needs.

Urbanization, migration and housing: a case study for India.

? In this way, the knowledge and understanding in the indigenous knowledge systems is automatically a part of the process of planning and implementation of the development project.

Integrating Indigenous Knowledge in Project Planning and Implementation

Andhra Pradesh 295,332 MT was the largest producer of Pacific white shrimp.

Integrating Indigenous Knowledge in Project Planning and Implementation

The use of traditional knowledge demystifies the local technologies that will be the basis for sustainable solutions in the future. Often poor conditions can be improved by elementary infrastructure support services. It is rooted in the spiritual health, culture, and language of the people.

Five

The incremental capital ratio is 4. They were filled with organic material to increase soil fertility.

Integrating Indigenous Knowledge in Project Planning and Implementation

In all project activities, the Kenya Economic Pastoralist Development Association KEPDA brings together traditional and modern technical knowledge, through publications and networking, to promote understanding and awareness on key issues. It is holistic — it cannot be compartmentalized and cannot be separated from the people who hold it. Project work schedule are defined by time frames, but these are often not effective for indigenous peoples who have their own internal needs and schedules that are not easily adjusted.

Integrating Indigenous Knowledge in Project Planning and Implementation

Traditional knowledge is not something that can be picked up in a short period of time. In 1990, there were 1.
