The only exception concerns the benchmark on the number of graduates in maths, science and technology, where some small countries Luxembourg, Malta, Cyprus with a limited higher education system, especially as regards MST faculties, perform below average. Growth in the number of MST graduates is moreover even stronger in new competitors like India and China.

Examples of HSP 3U1 Assignments

The values close to the EU average figures about 50% are observed in all Nordic countries as well as in France and Poland.

Nigeria: UCTH MGT Alleges Threat to CMD's Life

Teachers whose salaries rise significantly throughout their entire career, however, may be less inclined to leave the profession than those whose salaries do not progress beyond the first few years of experience. Moreover, results of another survey carried out by Eurobarometer on vocational

training of 2004 53 , show that only one in five Europeans intends to do more training in the near future, and one in five intends to do less.
