Office of Research and Graduate Affairs: Emeritus Professors of the University

Publishers BSAS, Edinburgh, UK and KARI, Nairobi, Kenya. This project investigated pest management problems in the export supply chain between Nigeria and the United States and was carried out in partnership with the University of Ibadan, Nigeria. The results showed that, the properties of torrefied samples were improved with increasing torrefaction temperature and microwave power.

Fiber Conferences

The agreement includes several changes from earlier document. At the rear is another timber-framed building, originally detached, which has a large fireplace and may have been a kitchen.

Natural fibres: An opportunity for job creation and improving livelihoods

In 1884 there was a protest that the river between Leek and Rocester was being contaminated by effluent from print and dye works and by Leek's sewage, with a consequent threat to the fishing. Canadian Meteorological and Oceanographic Society 26th Annual Congress, Québec, 8-12 June, 1992, 21 p.
