## [2108.00539] Images of Multilinear Polynomials in the Algebra of Finitary Matrices Contain Trace Zero Matrices

In a way this took the theory full circle, connecting once more the content of old and new viewpoints. Strictly, the approach was invoked; this is somewhat more general than category theory, and the relationship between the two as alternate ways was also being clarified, at the same time.

### Multilinear algebra

One can analogously construct the symmetric algebra on an affine space.
