Filesize: 34.45 MB

Tags: #Agricultural #Irrigation

## irrigation

Marginal and small land holdings face a number of issues, such as problems with using mechanisation and irrigation techniques.

## Ministry of agriculture and irrigation

Using micro-irrigation systems such as drip or sprinkler irrigation has also been linked to an increase in the yield of crops.

## State of Agriculture in India

Table 5 shows the various sources of irrigation used in agriculture. There is no charge for the use of this system.

## An Overview of Irrigation Techniques & Technology

The central government had released a Model APMC Act in 2003, to be enacted by states. The share of population depending on agriculture for its livelihood consists of landowners, tenant farmers who cultivate a piece of land, and agricultural labourers who are employed on these farms. Table 15: Ground water development and coverage of irrigation in states State Ground water development % % Irrigated area Andhra Pradesh 45% 38.

## Irrigation

Ranchers are allowed to use areas of the desert lands for rangeland where cattle and sheep graze during the summer months.

## Agricultural Irrigation

Crop irrigation is vital throughout the world in order to provide the world's ever-growing populations with enough food. In addition, farmers have to arrange for their produce to be transported from their farms to the nearest mandi, which brings in costs such as transport and fuel.
