UNICEF: 20 percent of children in developed countries living in poverty

The girls often have no say in when or whom they marry. They also lack textbooks, school supplies, and other tools they need to excel. Research shows that on average, families require a household income of about twice that amount to cover basic expenses.

What one 20

Denmark, Iceland and Norway, where one in 10 children live in poverty, recorded the best results. The report, commissioned as part of the , examined the across 41 countries that generally enjoy high average incomes. There are also often higher levels of stressors and issues that these young children are worried about after school, in addition to having to worry about completing their homework.

UNICEF: 20 percent of children in developed countries living in poverty

Multiple studies have found environmental complexities and material deprivations to be causes of serious physical abuse. Child Marriage and Poverty Child marriage is most prevalent in the poorest countries in the world and particularly in the poorest households of these countries.

Understanding Child Poverty: Facts and Statistics

While boys do marry before the age of 18, girls are much more significantly affected.

Child poverty in the developing world

Only 20% of aid for education goes to low-income countries, the Global Partnership for Education GPE.
