

Report on the polytechnic survey

[s.n.] - Fewer poly graduates employed within 6 months of graduation amid COVID

Informed Consent (Online Survey)

This online survey is being conducted as a part of a research project being conducted by Joshua Mitchell in partial fulfillment of his Master's Degree in Leadership at Royal Roads University. This survey is estimated to take approximately 15-20 minutes to complete.

Title of Research Project: Enhancing Collaboration in Student Services at KPU.

Principal Investigator: Joshua Mitchell

Application # 2012-007

Voluntary participation:

You are participating in this research project on a completely voluntary basis. You have the right to withdraw from the research study at any time during the survey. Online survey participants can withdraw at any time prior to the completion of the survey. If you choose to withdraw, you will not receive any compensation or benefit for doing so. You may skip any question(s) that they do not wish to answer. To save your responses individual, please click the 'Save' button at the bottom of each page. If you choose to withdraw, you will not receive any compensation or benefit from the study, you will still receive the same benefits and opportunities that other employees receive. Your responses will be kept confidential. All responses will be collected and analyzed by the principal investigator listed below any questions you may have about the research study. You may ask further questions in the future if you do not understand something that is being asked.

This survey is being conducted as a part of a research project. Please review this form carefully and ask any questions about the study before you agree to participate. You may also ask questions at any time during the survey.

Purpose of Research Project: Following the example of the Office of the Registrar and Student Life & Community division in the 2012-13 academic year to form what is now Student Services, and in support of the mission of the university, the purpose of this survey is to engage Student Services employees to address the following questions: How can we better serve our students? What are the challenges facing our students? What are the challenges facing our staff? What are the challenges facing our institution? The data collected from this survey will inform a better understanding of how Student Services can improve its services to students and staff. The results of this survey will be used to inform the development of KPU's general, examples of successful collaborative practices in Student Services, and perceived barriers to greater collaboration within the division.

Constituency report brings grad student situations to light

Why will the polytechnic board need twelve members? The 2016 Census from Statistics Canada counted 23,945 individuals in the NWT workforce, of whom 21,415 were employed. About Engineers India Research Institute Engineers India Research Institute EIRI is an esteemed organization and provides integrated technical and financial consultancy service.

Fewer poly graduates employed within 6 months of graduation amid COVID

But the education department over successive governments had complete authority over the college, right down to the approval of press releases. Community-based programming in the learning centres may offer the polytechnic its most likely recruits. Once your account is created, you'll be logged-in to this account.

More poly graduates employed six months after graduation, with higher salaries: Survey

For the 2019-2020 year, we included the winter 2020 grads which comprise a very small number with the December 2019 survey sub-cohort.
