

Investigation of leadership traits and skills in relation to microteaching feedback sessions in ELT teacher education

- - Characteristics Of Effective Leadership In Education Education Essay

The outcome of this paper shows that the student teachers through the microteaching course developed an ability to transfer not only their knowledge of the subject matter, but also their pedagogical skills in using the whole class presentation followed by group work activities their pair and individual work zones respectively. The finding of this paper testifies that the Kuwaiti Ministry of Education should encourage the proposed model used in the micro teaching and practicum course in which it can take part in student learning process in general and specifically in second language teaching and learning by the use of the action work zones. The experimental stage was carried out during the micro-teaching course and then the student teachers implemented these techniques in their practicum. The participants for this study consisted of 15 student teachers who have recently passed the micro teaching class and 10 traditional teachers.

Language Teaching Research, 10 1 , 3-32.

Why is feedback important?

Through feedback, teachers can become aware of how their classroom functions and thus bring about changes they desire.

Prof. Badran A. Hassan

Moreover, teachers concerned with personal and interpersonal qualities will focus to improve their English knowledge, qualities as a successful teacher, interpersonal relationships with students, and skills in generating a stress-free and pleasant learning environment.

Researching teacher associations

W AXMAN, H ERSH C. Indian scientists work all their life for getting recognition abroad.

use of video in microteaching: affordances and constraints

The principal should not be known for establishing stringent rules and regulations to be followed but also be the first person to observe them. This attitude at times has been reported to lead to frustration among the participants.
