## Leadership & Organizational Effectiveness

Organisational recognition and reward for their contributions remains elusive.

## The Leadership Challenge: Women in Management

There are limits to the adoption of flexibility opportunities when business remains locked in a mindset that privileges work over private life. At one level, women are reaping the rewards of equal opportunity enactment. Unfortunately, this is unlikely unless management skills are seen as valuable and needed by everyone, rather than add-ons for those who desert clinical care for an easy life behind a desk.
