## A taxonomic revision of Cassine L. s. str. (Cassinoideae: Celastraceae)

O xilema está constituído por elementos de proto e metaxilema, dispostos em séries radiais, separados por células parenquimáticas e.

## Parnassiaceae

Molecular Phylogeny and Taxonomy of Malesherbiaceae. Bark often yellow due to triterpenic compounds.

## Euonymus

A series of collections from Costa Rica U. Catha, Maytenus, and Pristimera are not resolved as natural genera.

## Thirty clues to the exceptional diversification of flowering plants

The non-native species grows over vegetation and kills other plants by preventing photosynthesis, girdling, and uprooting by force of its massive weight. *Hydnocarpus sharmae* Flacourtiaceae , a new species from Andaman Islands, India.

## Euonymus

Flowering Time: The species flowers from July to September in the Great Plains 4. Entretanto nenhum dos autores supracitados mencionou em que região da lâmina foliar este caráter foi observado, dificultando a sua utilização nas comparações entre as espécies.
