**Firm growth and its determinants**

Our experts also considered the future of corporate training, an expensive and often ineffective activity—when it did succeed, it was through in-person, hands-on learning. However, there are many researches suggesting that it may not be the case with every enterprise.

## Energy and sustainable development in Nigeria: the way forward

The abrupt halt of global travel during the COVID-19 crisis, aside from delaying personal trips and vacations, has had a major impact on businesses across sectors.

## Small

Sree Kumar Mukherjee and Mrs. In Joplin, 194 more adults are now serving as mentors and tutors than five years ago.

## The index of rural access: an innovative integrated approach for measuring primary care access

The policy recommendations of this report strengthen the idea that we need much greater investments in pre-K programs and continued comprehensive support for children through their academic years, including meaningful engagement of parents and communities, if we are to substantially improve the odds for disadvantaged children, in light of their extensive unmet needs and untapped talents.

## Urbanization and desertification in the Sudan with special reference to Khartoum

I acknowledge my parents Mr. Also, the average employee strength for SMEs is fifty employees and one hundred fifty employees respectively.

## **How have Europeans grown so tall?**

Better student attendance and engagement are also predictors of academic gains Chronic absenteeism depresses achievement, particularly among low-income students. In order for MSMEs to develop a competitive advantage to venture into the international market and operate there, the Indian MSME needs to establish themselves in the domestic market. UK has entered into a collaboration with India under the skill India programme.
