Statistics Every Cause Marketer Should Know

Invite them to join your product events. There are many ways you can expose them to your business.

Statistics Every Cause Marketer Should Know

The average number of data sources has grown by 20% since 2017, and the median number of data sources marketers use is forecast to jump from 12 in 2018 to 15 in 2019. However, 40% of Americans are not able to name a socially responsible organization when asked. Acquia At first glance, a statistic like this one seems strange, as people assumed technology would resolve these issues.

Scent Marketing Research and Scent Statistics

Rewarding customers for their loyalty in a meaningful way should therefore be one of the top priorities of any business. Citrus uplifts and helps ease anxiety. Emarsys The same research done by Emarsys lists organic search and paid search at spot two and three on the list, with social media trailing right behind.

Consumer Research and Consumer data for your business

It was made popular by online tools like. HubSpot While trust in businesses erodes, trust in family, friend, and colleague recommendations keeps growing. If people are aware of your product and know what your brand stands for, they are more likely to purchase items you produced.
