## Faith and the Adolescent

But often our teenagers don't know when they've entered it, and they're hard-pressed to find their way out.

### A Crisis of Faith by Tony Sunderland

Factors such as denomination, race, sex, and types of religious coping may affect the relationship between religion or spirituality and depression.

### Handout 1: Stages of Faith Development

He described how science and religion were two separate entities but that they were beginning to merge.

### Psychology of religious conversion

But if the church doesn't provide them opportunities to do this, they'll find other, often more destructive, rites of passage for example, gang initiation, drugs and drinking, sex, and so on. Future studies should include physiological parameters. And I've been thinking along the same lines you've outlined above.

### What role do religion and spirituality play in mental health?

This researcher gave a broad overview of the many hundreds of hypotheses that could be tested. So if faith is more than a simple belief, what exactly is faith? At this stage, children experience faith as a connection between themselves and their caregiver. Oxford: Oxford University Press; 2001:514-554.
