A book that has been read but is in good condition. For the first time in this important new book, Andrew Karch analyzes in depth the process of policy 'diffusion' across the states, offering a nuanced and powerful framework to explain one of the most important and recurrent features of U. The effect of newer technologies on negative campaigning is also examined, including blogs and Web video, in addition to tried and true methods like direct mail.

Out of the multiple groups and conflicting interests of American society has emerged the liberal-conservative spectrum, a single axis along which any public figure can be placed to determine his position in the political scene or with regard to any other political figure. According to sociologist Neil Gross, the study was significant because it was the first effort to poll university faculty specifically about their political views.
