### Recreation and Leisure Studies

Students are responsible for understanding and applying philosophical approaches developed by philosophers, writers, and activists associated with the wilderness, sustainability, biodiversity, hunting, suburban sprawl, environmental activism, endangered species, organic foods, and genetic engineering. Equivalent s : LMT 593, RMP 593W RMP 603 - New Hampshire Ski Industry Management Credits: 4 This course examines the New Hampshire ski and snowboard industry from several distinct but interrelated perspectives: social, technological, environmental, historical, economic, and operational. Equivalent s : KIN 407B OUT 444A - Risk and the Human Experience Credits: 4 Explores the construct of risk in two phases: 1 knowledge building, focusing on the historical development of risk and its current manifestations in contemporary society; and 2 knowledge application, which focuses on applying conceptions of risk to various case study examples.

### Recreation and Leisure Studies

A 4 credit internship requires a minimum of 400 hours experience.

### Recreation Management and Policy (RMP) < University of New Hampshire

Recreation professionals work in diverse settings, including human services, health care, natural recreation resource areas such as parks, wilderness programs, and commercial recreation businesses. Students will become familiar with professional standards in applied recreation contexts, examine risk management principles, and pursue certifications in areas such as: defensive driving, child protection, wilderness first aid, and CPR. Attributes: Humanities Disc RMP 515 - History of Outdoor Pursuits in North America Credits: 4 Voluntary pursuits in the outdoors have defined American culture since the early 17th century.

### Recreation and Leisure Studies

Students develop an understanding of necessary canoeing equipment, trip planning and organization, instruction of basic canoeing strokes, implementation of safety procedures, and group management on canoe expeditions.

### Recreation Management and Policy (RMP) < University of New Hampshire

OUT 699H - Honors Project Credits: 4 Project first involves tutorial sessions to introduce the student to the experimental design, after which a research question is developed. The Japanese government's active post-war approach to leisure is unusual and distinctive, owing its shape to pre-war policy decisions privileging for strategic purposes American and European conceptions of proper recreation, leisure and travel. Issues in Recreation and Leisure: Ethical Decision Making guides students through this complex process of resolving real-life recreation dilemmas by presenting activities, techniques, and a field-tested three-step process.
