Advanced Khoros Manuals

For clinicians, the time spent conducting postgraduate clinical training that does not involve research is not considered as part of the 24 months eligibility limit.

New Products

MENTORING PLAN — 4 PAGES Provide a detailed mentoring plan for the Candidate that describes the approaches to be used such as frequency of one-on-one and group meeting; oral scientific presentations; instruction on how to critically evaluate the literature and experimental design; training in scientific writing e. The research experience can be extended for an additional year if evidence is provided to show that the candidate is actively pursuing entry into a graduate or a health professions school. If a post-baccalaureate or post-master's supplement candidate wishes to extend their research experience for a second year, evidence must be provided to show that the candidate is actively pursuing entry into a graduate or a health professional school.

New Products

Requested Salary: Combined total of candidate salary and fringe benefits should be reasonable and consistent with the institutional salary policies and cannot exceed the amount allowed for graduate students see NIH Guide announcement,. Applications seeking awards before the end of a fiscal year September 30 must be received no later than May 31. Support for cost extensions is not guaranteed.

Khoros Marketing: January Incident Summary and FAQ...

RECEIPT DATES An application for a new supplement may be submitted at any time. Refer to specific levels in the tables below. The following racial and ethnic groups have been shown to be underrepresented in biomedical research: Blacks or African Americans, Hispanics or Latinos, American Indians or Alaska Natives, and Native Hawaiians and other Pacific Islanders.

New Products

The candidate is not expected to conduct independent research; however, any candidate who indicates readiness for some degree of independence should be encouraged to do so, provided their research is part of or a logical extension of the parent grant or contract's original research plan or goals. May include a mixture of full-time summer and part-time experience during the school year.

New Products

Any cross-platform ties were severed during the investigation. Although only one candidate may be supported on each request, grantees may submit more than one request on separate applications for the same parent grant.

Advanced Khoros Manuals

NHLBI support for PBS and PMS level supplements may not exceed 2 years. Include PMCID numbers for each publication. It is built around an architecture with three separate modules which include server, client and graphics.

New Products

The investigator must have a doctoral degree, beyond the level of a research trainee, and typically be employed at the junior faculty level instructor or assistant professor. The NHLBI may synchronize the requested start date if it is within three months of the budget start date of the parent grant to eliminate more than one award being made in a single fiscal year.
