## Sarah (Austin) Kelsey (1792

The grave is partly underneath Arthur's tomb chest — a carved stone chest that acts as a memorial — and probes showed excavations of soil and rubble, indicating the presence of a grave, but not whether there were any human remains inside, he said. In 1712, he returned again to England. He carried with him a sample of hatchets, beads, and tobacco the company offered.

## Archaeologists find grave of Henry VIII's elder brother

Historian Julian Litten said one of the main questions about Arthur's illness was whether it was genetic, pointing out that Edward VI, son of King Henry VIII and his third wife Jane Seymour, was also just 15 when he died in 1537. Deceased Online is changing this.
