## Empires of trust : how Rome built

An empire of conquest can blaze across half the world in a generation and then collapse just as quickly. But that's why I got this book when Audible put it on sale and anyway I don't read only what I expect to agree with , but I didn't know the author's bent ahead of time.

Seeing the Greeks in the position of old Europe looking down on the new power was enlightening, and seeing the parallels between the Israelis diehards the Romans dealt with and Muslims in our current day was eye-opening.
