How to Make Money in Stocks: A Winning System in Good Times or Bad by William J. O'Neil

This book is your introduction to the world of Bill O'Neil, an investing giant who has made enough of a fortune in the market so that he has no need to A sell books or B sell newspapers to make money as others here have suggested. Some of the advice is also pure hogwash, I'm afraid. I'm giving it 4 stars because it's a classic, William J.

The 4th edition includes data back into the 19th century all the way through the 2008 financial crisis.
